ASUS Exclusive Innovations

■ Dual-ball bearing fans

Without the problem of oil drying common in sleeve-bearing fans, the dual-ball bearing fan lasts 2X longer. With reduced friction, it also runs smoother, further improving card lifespan and cooling efficiency.

■ IP5X-Certified Dust Resistance

ASUS fan design is certified under the International Protection Marking (IP code) as IP5X dust resistant for improved reliability and optimal fan performance, even under severe conditions.

■ AUTO-EXTREME TECHNOLOGY

An industry-only, 100% automated production process that incorporates Super Alloy Power II components for premium quality and best reliability.

■ GPU Tweak II

GPU Tweak II allows you modify clock speed, voltage, fan performance and more, all via an intuitive interface.
